SUMMARY

I'm a tech-driven individual with a passion for software development. My skill-set spans multiple disciplines, including programming languages (C, C++, Python) and problem-solving. I've successfully delivered 2 impactful projects showcasing my development skills. further honed through problem-solving challenges. Beyond technical expertise, I'm a good collaborator and communicator, thriving in team

EDUCATION

- **SRM Institute of Science and Technology** *Ghaziabad, Uttar Pradesh*
Bachelor of Technology in Computer Science and Engineering-CGPA:9.25 Aug. 2020 – May 2024

TRAINING

- Cisco Network Acamedy** *March 2023 - August 2023*
Trainee, Learning *Online*
 - * Completed a learning-based internship offered by Cisco in collaboration with AICTE, successfully finishing assigned courses by Cisco Networking Academy, participating in industrial sessions, and designing a Campus Area Network using Cisco Packet Tracer to obtain relevant certification.

PROJECTS

- Remote Driving** *September 04, 2023 - September 25, 2023*
Python, Socket Programming, *Code Link*
 - * Spearheaded the development of a cutting-edge platform that revolutionized video and signal streaming, delivering and unprecedented 10 milliseconds latency, resulting in seamless real-time interactions.
 - * Orchestrated a remote driving demonstration allowing users to control a machine based on real-time video feeds.
- Transportation Conversion** *May 05,2024 - May 10,2024*
HTML, React-bootstrap, ReactJs, Django, Django Rest Framework *WebLink*
 - * This project will gives the result of quantity of fuel should require to to reach certain destination along with the time required to reach, by utilizing the no of km you want to go with your chosen vehical.
- **PasswordGenerator** *Jun 02,2024 - Jun 03,2024*
HTML, React-bootstrap, ReactJs, Tailwind CSS *WebLink*
 - * This will generate password according to user need either with aplhanumerical or non alphanumerical based on the user need.
- TaskManagement** *Jun 15,2024 - Jun 18,2024*
HTML5,Tailwind CSS,ReactJS, Django, Djagno Rest Framework *WebLink*
 - * This Project is show the number task is available according to their funtionality such view, edit, delete , update and add new tasks.

SKILLS

- Programming:** Python, C/C++, Object oriented programming, MySQL, Socket programming
- Tools and Frameworks:** Visual Studio Code, PyCharm, Google Colab
- Web Development:** HTML, CSS, ReactJs, Django, Django rest Framework
- Operating Systems:** Windows, Linux

CERTIFICATIONS

- Database Management System** *National Programme on Technology Enhanced Learning*
Issued by *August 2022 – November2022*
- Data Structure and algorithm using python** *National Programme on Technology Enhanced Learning*
Issued by *January 2023–March 2023*

PLATFORM

- LeetCode
- GeeksforGeeks
